

# COMPUTER ENGINEER RESUME

547 Vincent St., Norman, OK • yourname@email.com • (405) 611-8251

## Summary

---

Driven Computer Engineer with 3+ years of hands-on experience in hardware design, development, and testing. Skilled in designing and implementing solutions for various computing systems. to leverage expertise in hardware engineering for a challenging role in a dynamic technology company.

## Professional Experience

---

Hardware Engineer II August 20XX–Present  
QSC, Norman, OK

- Design hardware components for embedded systems, including microcontrollers, sensors, and communication modules
- Conducted testing and validation of 20+ hardware designs to ensure optimal performance
- Collaborate with cross-functional teams to integrate hardware components into larger systems, meeting project deadlines and specifications
- Provide technical support and assistance to manufacturing teams during production ramp-up and troubleshooting activities, reducing downtime by 15%

Hardware Design Engineer July 20XX–August 20XX  
LEIDOS, Norman, OK

- Developed custom hardware solutions according to client requirements
- Implemented schematic capture and PCB layout design for 10+ projects using industry-standard tools including Altium Designer
- Conducted simulations and analysis of hardware designs to optimize performance and meet project requirements
- Coordinated with suppliers and manufacturers to ensure the timely procurement and production of hardware components

## Education

---

THE UNIVERSITY OF OKLAHOMA, Norman, OK May 20XX  
Bachelor of Science in Computer Engineering  
Honors: *cum laude* (GPA: 3.9/4.0)

## Additional Skills

---

- Circuit design
- Signal processing
- Testing and validation
- Design simulation
- Technical documentation
